

# Sirona Voice Acting Entry

## Accompanying Script

### *INTERIOR CLUB SCENE*

*The sound of thumping club music, strong electric rhythm with an alien sound, a pleasurable but intense rhythm. We can hear snippets of passing conversation as Linna dances with new found freedom.*

Voice 1 - And then I told Andrea that I absolutely refused to put on that horrid aubergine thing she offered -

Voice 2 - -she didn't offer you that velvet one-piece thing did she?

Voice 1 - Thats the exact one, she said it was worn by some princess of Xeleya but we both know that she found it in a pile of Ferengi castoffs.

*The bass fades slightly as we focus on Linna.*

Linna - (to someone offstage) Thanks!

[A voice interrupts it is Merans but it feels disconnected, intrusive.]

VOX - Tell me the plan again.

Linna - I know what to do.

VOX - The plan, Linna!

*We hear a glimpse of rowdy voices but it is quickly gone again.*

Linne - (Mockingly) - Find a wall, turn your back to it, wait for you.

Vox - Say it again for me Linna.

Linna - (With mounting frustration) - Find a wall, turn your back to it, wait for you.

Vox - Then?

Linna - We'll beam you back to Sirona.

Vox - Or?

Linna - Head to the East exit.

Vox - Again.

Linna - Find a wall, turn your back, wait for you.

Vox - Again

Linna - Find a wall, wait.

Vox - Linna-

*Linna begins to laugh.*

Linna - Find... find...

*[She collapses into squeals of laughter as more laughter joins from the background as the base increases and the drone begins to creep into the ambience.]*

*[The voice has coalesced into Meran at her side as the drone becomes noticeable to the ear.]*

Meran - We are leaving now!

Linna - But Why?

*[The chatter has fallen as people begin to notice something but the bass continues without stopping.]*

Voice 1 - Do you hear that?

Meran - Don't look up.

Voice 2 - You said the weather forecast was clear.

Voice 1 - That's not thunder.

Meran - We're moving, keep moving.

Linna - Is that part of the show?

A pulse of noise begins as a starship begins to descend and begin powering up.

Meran - Meran to Sirona, two to beam up *PAUSE* Sirona, respond!

*[We hear the sound of people shouting, it begins to become swallowed by the drone and rumble. A stampede of feet begin to join the cacophony. Through the noise we hear Linna calling for help. ]*

Linna - Sirona, Sirona come in.

*[Eventually, Meran answers nearby.]*

Meran - Here!

*[We hear more struggling, footsteps and screams; the drone continues to grow.]*

*[Then an alarm sounds over the screams.]*

*[It stops abruptly as the Vaadwaur assault begins.]*
